

OLABODE ALAO

Cybersecurity Analyst | Full-Stack Developer | Backend & Security Engineering

Ota, Ogun State, Nigeria | +234 704 072 4260 | olabodealao585@gmail.com
github.com/Majeed08 | linkedin.com/in/olabode-alao-14aa01242

PROFESSIONAL PROFILE

Computer Science (Technology) graduate with practical experience across cybersecurity, security operations, backend development, computer networking, data analysis, and secure web application development. Skilled in Python, JavaScript, Node.js, Express.js, MongoDB, REST APIs, and security-focused automation, with hands-on projects spanning SOC alert triage, log-based threat hunting, data analytics, and production-oriented web systems. Brings strong analytical ability, leadership experience as a Course Representative, and a continuous-learning mindset suited to cybersecurity, software engineering, and technology roles.

PROFESSIONAL EXPERIENCE

UnoTelos Limited - Customer Success Engineer (Intern)

Lekki Phase 1, Lagos | January 2025 - June 2025

- Provided technical troubleshooting and system support throughout a six-month internship, responding to client issues and supporting reliable service delivery.
- Documented network and IP address information, including sorting and cleaning records for operational use.
- Maintained accurate records of system updates, configurations, and project activities for reporting and review.
- Managed technical communications with clients and supported timely resolution of technical issues.

EDUCATION

Babcock University, Ilishan-Remo, Ogun State, Nigeria

B.Sc. Computer Science (Technology) | 2022 - 2026

- CGPA: 4.28 / 5.00 | Division: Second Class Upper
- Leadership: Course Representative; final course representative for Computer Science (Technology).
- Professional membership: Graduate Member, Computer Professionals (Registration Council of Nigeria) - GMC PN.

TECHNICAL SKILLS

Cybersecurity & Infrastructure	Security Operations, Threat Intelligence, Threat Hunting, Log Analysis, Vulnerability Assessment, GRC, Computer Networking, SOC Workflows, IT Auditing
Programming	Python, JavaScript, C, C++, C#, PHP, HTML, CSS, SQL
Backend & APIs	Node.js, Express.js, FastAPI, REST APIs, MongoDB, CRUD, API Integration, Basic Authentication
Frontend	React, Next.js, Tailwind CSS, NativeWind, Responsive Design
Data & AI	Pandas, NumPy, Exploratory Data Analysis, Data Cleaning, Data Visualization, Machine Learning Fundamentals
Tools & Platforms	Git, GitHub, VS Code, Microsoft Excel, Google Sheets, Firebase

SELECTED PROJECTS

Automated Threat Triage Engine

Python | Automation | Security Operations

- Developed an automated security-alert triage workflow to ingest, categorize, assess, and prioritize alerts for faster SOC response.
- Designed the workflow to reduce repetitive manual analysis and support consistent escalation decisions.

Log Hunter

Python | Log Analysis | Network Monitoring | Threat Hunting

- Engineered a specialized monitoring application for deep log analysis and proactive threat detection using predefined security rules.
- Focused on identifying suspicious behavior and potential security breaches from system and network log data.

Superstore Performance Analysis

Python | Pandas | NumPy | Data Visualization

- Performed exploratory data analysis to evaluate regional sales performance, product profitability, and discount effects on revenue.
- Translated findings into analytical insights supporting clearer interpretation of business performance patterns.

Osma International Schools Portal

HTML | CSS | JavaScript | Node.js | Express.js | MongoDB | REST API

- Designed and deployed a responsive multi-page school website serving as a digital storefront and public information platform.
- Built backend functionality for administrative data, inquiries, and form submissions, with REST endpoints and input validation; deployed on Vercel.

CERTIFICATIONS & PROFESSIONAL TRAINING

- New Horizons - Certificate of Completion (July 2026): CompTIA A+ Core I & II; Certified Secure Computer User; Windows Server; CCNA; Android Mobile App Development; Networking+.
- Cisco Networking Academy (NetAcad) - Introduction to Cybersecurity.
- NVIDIA - Building RAG Agents with LLMs.
- NVIDIA - Fundamentals of Accelerated Data Science.
- Techcrush - Data Science.
- Udemy - Web Development.

LEADERSHIP, COMMUNITY & COMPETITIONS

- Course Representative at Babcock University, serving as a liaison between students and faculty.
- Member, Google Developer Groups (GDG) Babcock; active participant in the campus developer community.
- Member, Babcock University Computing Club (BUCC) and Babcock University Entrepreneurship Club.
- Cowrywise Ambassador - promoted financial literacy and investment initiatives.
- Babcock Innovation Challenge (BIC 6.0) - competitor/representative for KWICK.
- Babcock Innovations and Ventures (BIV) - showcased and presented KWICK to tech communities.
- Babcock Innovation Challenge (BIC 5.0) - competitor/representative for UNIVEST AI.
- Babcock Harvard Hackathon - represented Kinetiq; participated in pitchathon and hackathon activities.
- NVIDIA DLI Workshop and Babcock Tech Week - participated in technical training and workshops.

CAREER FOCUS

Open to graduate-level, internship, entry-level, and junior opportunities across cybersecurity, SOC operations, threat analysis, security engineering, backend development, full-stack development, data analysis, and secure software development.
